HIGH PERFORMANCE LIGHTING

TRIPLE-R 850 ELITE-3

Incorporating much of the same component technologies as used in our 2018/9 WRC lighting solutions, the Triple-R 850 Elite, 3rd Generation, is a high-performance auxiliary LED driving light, that leaves nothing to the imagination. Featuring dual-output E-Boost functionality to ensure the lamp is optimised for both on and off-road lighting performance, in Boost mode the lamp generates 6,760 raw lumens and 1 lux to an astonishing 580m. Impressive performance considering the lamps relatively diminutive proportions; measuring just 322mm in length.
